

```
1  import simpy
2
3  def example(env):
4      yield env.timeout(10)
5      print("now=%d" % env.now)
6      yield env.timeout(10)
7      print("now=%d" % env.now)
8
9  env = simpy.Environment()
10 p = env.process(example(env))
11 env.run()
12
13 # Output:
14 # now=10
15 # now=20
```
